

## Seward Schools Site-Based Council Elections

**You are invited** to be part of a comprehensive council that assists in the development of our area school programs; works as one decision making team, with decisions being made through consensus; and is informed and up to date on the current programs within our schools.

- **Mission Statement:**  
Public school students in Seward area will matriculate in three schools before graduation. As the site based council we believe unity in comprehensive development of area school programs is essential. In that regard, the Seward Schools Site Based Council recognizes the school in the Seward area as a single site. We believe the strongest forum to best develop improvement plans for the Seward Schools is one comprehensive council. We believe Seward schools need to develop in a unilateral direction that promotes a continuum of educational studies. We believe that our schools develop the strongest programs and have the broadest consensus by having one site based council, with fair representation from all schools, working as one decision making team.
- **Officers:**
  - President – Mica Van Buskirk
  - Secretary – Leigh Ray
- Meetings during the 2013-2014 school year are held on the second Thursday of each month at 6:30 PM in the Middle School's professional development room (7 meetings a year). All are welcome to attend.
